

Edemco the professionals choice

SAFE - ATTRACTIVE - BUILT TO LAST

Save time and energy with the most advanced drying system on the market. The F500 will save valuable time, expediting drying by as much as 70%. Large volumes of air gently circulate around the pet(s) to keep them safe and comfortable while drying. The F500 is the most useful piece of equipment you will ever own.

Optional

■ F605 Toy Breed Cages

Increase your holding capacity with this set of six F605 toy breed cages and utilize space that would otherwise be wasted. Cages include PVC coated floor grills and waste trays. Shipped KD (knocked down) to minimize shipping cost.

Optional

■ F520 Three Cage Unit

Made to fit on top of the F500, the F520 has two removable dividers to convert into a three-two or one holding cage. Fully assembled and ready to use. Order separately or as a set.

■ Temperature/Humidity gauge

■ Locking casters

■ PVC coated floor grill

■ Gravity latches

Automatic shut-off 60 minute timer allows you to determine how long the unit runs

1/4 HP motor drives the 1400 CFM blower circulating gentle warm air within cage over 60 times per minute around the pet(s).

Plexiglass doors provide you and the pet with great visibility while the attractive frame adds strength for safe containment of pet(s)

Calrod heating element with thermal overload cut-off

Solid-state temperature control. Dial any degree of heat from 72 to 90 degrees

PVC coated floor grill autoclavable and comfortable

115/120 Volts also available in 220 volts (optional)

Standard and custom colors available
